How much should you give?

You should give as much as it feels comfortable giving.

We encourage people to choose a percentage from the household income 1%, 3%, 5%, 7%, 10% or more.

Imagine if each of us gave 10% from our annual income. If the household income was only \$50,000 a year – with hundred families that would mean a \$500,000 budget.

Imagine how much more we could do. Please consider giving 10%.

Below, please list any other special talents:

Stewards - One rule to follow: LOVE.

Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It does not dishonor others, it is not self-seeking, it is not easily angered, it keeps no record of wrongs... It always protects, always trusts, always hopes, endures all things...
